

DEXTEROUS DMCC GOLD BUYING PROCEDURES

Here you find our company's general information for suppliers, sellers, seller representatives, agents and brokers.

Yes, our company processes (smelt, test, pay), buys & sells gold in all forms (dust, sponge, nuggets, bars) and in all purities from all over the world. We have been in business for 8 years with our office in Dubai and partner in Hong Kong. Our office is open Mon-Fri 10am-6pm (except public holidays) plus by appointment.

Suppliers/sellers/representatives/couriers come/lift/ship to our office in Dubai and Hong Kong, to DXB and Hong Kong International Airport or deposit into our Loomis, Brinks or Malca-Amit account at any of their office locations worldwide if needed. If needed, we offer airport pickup and help organize hotel, catering and entertainment here in Dubai and Hong Kong. We also provide support with visa application for Dubai and Hong Kong by is-

Our procedure is straight:

WE SMELT, WE TEST, WE PAY.

The smaller the volume, the quicker we can process your material.

For high volume execution time depends on value logistics transport and refining capacity.

General guideline for procedure time:

Tiny Volume **(1-4kg)**: 1-2 hours

Small volume **(4-10 kg)**: takes accordingly longer

Medium/Regular volume **(10-25kg)**: one morning or one afternoon.

High volume **(25-40kg)**: same business day depending on time of arrival.

Industrial volume **(>40kg-500kg)**: 2-10 business days

We usually pay by international bank wire transfer in preferred currency (any of top 10 currencies).

Part payment in cash is also no problem.

Full payment in cash will require additional time and incur exchange costs.

Suppliers/sellers/representatives/couriers who come to town usually wait until paid in full or until they receive full payment confirmation from their company.

Our procedure is very transparent and we provide full paperwork.

This means proper receipt, invoice, purchase confirmation incl. purity table.

But please also be informed of the sad fact that we receive about 20-30 emails and calls from potential sellers every day, every week, every month.

Unfortunately 99% of these are conducted by scammers and broker jokers and document sharks. We can not possibly attend and remember all these contacts if they never arrive in person.

We are not interested to travel to your country and inspect material which might or might never arrive in Dubai or Hong Kong due to circumstances under seller's side control. We have been to over 105 countries and know the local business environment well.

We do not trust botched documents, dubious certificates, safe keeping receipts or tiny sample test results. The only thing that matters is that the material tests real when we smelt and test in Dubai or Hong Kong. Feel free to witness and stay in control.

We have revised about 20,000 SPAs, "FCOs", "SCOs" and are aware of most if not all red flags.

We do not entertain to any requests for upfront payments for taxes, shipping, storage, insurance, tickets, LC, BG, PB ... or alike. Sellers who get themselves organized and visit us frequently never ask for these and warn of such upfront scams ..

If your gold tests real your costs are refunded with our very competitive purchase price (calculation based on spot market price).

If you made the deal, got yourself organized and successfully supplied real gold then you deserve profit for your work.

We are not interested in fantasy pricing.

If you are a genuine seller or represent a genuine seller, please be invited to do your due diligence on our company and our HR and to visit our office or call us for further details.
